github.com/anpythomas

Python Developer with a passion for web-development, problem solving, and automation. Proven leader who thrives in a fast past team environment with tight deadlines. 3 years of Python experience. I quit a comfortable job, completed several online programming courses, and have spent the last 3 years coding full time. I've built several projects from scratch through trial and error with the help of Google, YouTube, and Stack Overflow.

MY PERSONAL PROJECTS

Booggle-Finance — <https://booggle-finance.com>

Booggle scrapes whiskey pricing data from an online auction and outputs an easy to read line chart, scatter plot and list of sales.

Django | Postgres | AWS | Web Scraping | Pandas | Seaborn

Lemon Py — <https://lemonpy.com>

A blog about lemon pie. Created with Python.

Python | Django | HTML | CSS | Bootstrap | Postgres | AWS

My Portfolio Site — <https://anpythomas.com>

Python | Flask | HTML | CSS | Bootstrap | Render.com
