github.com/anpythomas

Developer with a passion for bringing raw data to life. Proven leader who thrives in a fast paced, team oriented environment with tight deadlines. I left a comfortable job to complete several online programming courses, and have spent the last three years coding full time. I'm leveraging my sales background to provide clients with a better online web experience.

PERSONAL PROJECTS

Booggle-Finance — https://booggle-finance.com

- Scrapes whiskey pricing data from an online auction
